

No	What type of internet connection did you have?	The Breeze Meeting loaded quickly	The audio was consistently understandable	The content overall enhanced attainment of course objectives	The chat pod served a useful purpose	Use of the camera and microphone enhanced overall quality	Live meetings (Breeze) are appropriate to learning	I will be teaching for USF soon	My interest in using Breeze is high	Question11	
1	cable	5	2	4	5	5	4	4	no	n/a	
2	cable	5	2	5	5	3	5	5	no	n/a	
3	cable	5	4	4	5	4	4	5	no	n/a	The camera was not utilized very often. There was difficulty with the microphone for several presentations that I observed. I feel very strongly that I do not want to replace any of the course discussions with the Breeze meeting opportunities. I decided to enroll in this program because it afforded me to work at times that were convenient to me. Requiring frequent Breeze meeting discussions or presentations during a course that required my attention at specific times may not fit into my schedule. I also am not sure how effective this first presentation was since the topic was the same for each individual and the Breeze meeting limited the presentation. I felt that perhaps a video of a presentation would have provided more opportunity to view and hear a presentation. However, I did enjoy the opportunity to try new technology.
4	LAN	4	5	5	5	5	5	4	no	n/a	
5	LAN	5	2	4	5	4	4	5	no	n/a	The Breeze environment was very user friendly and easy to learn. We did have some issues with the mics not working on several presentations. Otherwise the process was great
6	DSL	5	5	5	4	5	4	5	no	n/a	I have used two other similar web training sites (centra and interwise) and found Breeze to be just as good.
7	cable	5	2	4	5	5	4	5	no	n/a	Overall a good experience and I think it did add to online learning.
8	LAN	5	5	5	5	5	5	4	no	n/a	It was very useful, especially in a Communications course. I would like to see more "live" interaction in the classes.
9	cable	3	2	4	5	5	4	4	no	n/a	I wish there was an easier way to retrieve recorded sessions rather than just using the scroll bar
10	LAN	5	1	4	4	3	5	5	no	n/a	For whatever reason, my audio did not work -- I could hear the host, but my audio out was cutting in and out. We finally accomplished the presentation over the phone, so no recording was possible. I'm hoping for better luck next time!
11	DSL	5	5	5	5	5	5	5	no	n/a	I had entered the Breeze Environment to upload my presentation and practice prior to my presentation. I had no difficulty. The night of my presentation, I did have technical difficulty. Glen thought it was electrical interference, so I switched offices and everything was fine. My only concern is that I don't really understand why I was successful one night and not another from the same location. All is well that ends well; however, I was hoping to really understand and avoid problems in the future. --Mary Henne
1	LAN	5	4	5	5	3	3	5	no	n/a	I believe that the introduction of Breeze Meeting and our ability to present "live" was key to this particular class (Communication in the workplace and classroom) and perhaps this degree program (TDEV). I don't think that it is necessarily needed in every curriculum. I also strongly believe that it should not be a substitute for the WebCT asynchronous learning environment.
2	LAN	5	5	4	5	5	3	3	no	n/a	
3	cable	5	4	5	5	5	5	5	no	n/a	I enjoyed using the technology and think that this is a tremendous tool to use in distance learning.
