Know what a memory care group is and why they are important.
Choose appropriate activities for residents with dementia.

Nursing in the Long Term Care Setting (Live Lecture; Instructor Outline) – (3) Contact Hours

Workshop Section 1: (50 minutes)
Demonstrate how to use tubes (foley, G-tubes, trachea, suction) in the older adult.

Workshop Section 2: (50 minutes)
Demonstrate treatment of wounds in the older adult. Recognize the importance of documentation.
Demonstrate the ability to insert an IV in the older adult.

Workshop Section 3: (50 minutes)
Explain the importance of history taking in a long term care setting.
Explain the importance of assessment in the older adult patient.

Workshop Section 4: (50 minutes)
Explain the need for pain management within the older adult.
Define and explain skilled therapy and restorative services specific to the older adult.

C.N.A. in the Long Term Care Setting (Live Lecture; Instructor Outline) – (3) Contact Hours

Workshop Section 1: (50 minutes)
Perform lifts and understand body mechanics in the older adult.
Perform proper positioning techniques for care of the older adult.

Workshop Section 2: (50 minutes)
Recognize adaptive equipment and choose the appropriate equipment.
Practice appropriate and consistent documentation.
Recognize multiple action steps to prevent falls.

Workshop Section 3: (50 minutes)
Explain the importance of history taking in a long term care setting.
Explain the importance of assessment in the older adult patient.

Workshop Section 4: (50 minutes)
Explain the need for pain management within the older adult.
Define and explain skilled therapy and restorative services specific to the older adult.
Sections: Each section includes Pre-work preparation packet (to be completed prior to the training session), Post-Test, and Reflection Activity (to be completed during the next working day)

Instructor: TBD

Presented by: The University of St. Francis College of Nursing and USF Solutions

Delivery: Classes are held at University of St. Francis or onsite. Satisfactory course completion consists of completion of the post-test with a minimum grade of 75% and is required to be completed by the end of the module. Workshop Sections can be combined. In order to be awarded contact hours, all components of the content listed must be completed by the close of the course (see course schedule).

Costs: Course availability and program costs are subject to change. See course schedule.

Register: www.stfrancis.edu/solutions or 815-740-3600

Cancellation policy: 6 business day notice of cancellation required for full refund. Classes cancelled with less than 6 business day notice are subject to a $10.00 non-refundable cancellation fee. No refunds are issued after the first day of class.
