HOW OFTEN DO I HAVE TO DO THE WAIVER:

WHEN IS THE INSURANCE WAIVER OFFERED

Insurance waiver is offered at the beginning of fall and spring semester.

1. If students do not have their insurance information during registration and do not want the Student Insurance they need to complete the waiver process prior to the deadline.
2. If a student is working on acquiring private insurance he/she needs to provide USF Health Records proof of pre-coverage from the insurance company so it can be submitted to USF Insurance for approval (prior to the deadline). Again, the approval period needs to be done prior to deadline. If proof of insurance cannot be produced by the deadline then the student must elect Student Insurance.
