II. STUDENT LEARNING OBJECTIVES: To be completed by the Student

Objectives Your learning objectives are what you want to learn or be able to do by the end of the internship. Decide the areas you want to focus on, and write your specific learning objectives as clearly as you can. Use action verbs to develop your objectives, such as apply, solve, design, develop, present, describe, compile, identify, determine, become familiar with, evaluate, understand, know, procedure, implement, explain, analyze, critique, and compare.

Tasks and Strategies After identifying your specific learning objectives, you need to determine how you will accomplish or make progress toward achieving your objectives. Ask yourself: What tasks, projects, or assignments will I do? Who are the people I will work with and what types of resources will I utilize?

Evaluation After objectives, tasks and strategies have been determined, you will need to decide how your learning will be documented, assessed, and evaluated.

The methods you choose for showing what you learned will supply the evidence to your faculty supervisor that you have achieved or made progress toward what you set out to learn.

On-The-Job Learning Objectives Please list four specific objectives, learning tasks/strategies and evaluations. At the conclusion of your internship you should reflect these outcomes on your resume.
